

MANUAL BURGER PATTY PRESS

TKMA-MBP10

STANDARD FEATURES

Aluminum, 10 cm diameter

- ✓ Designed to create consistent 10cm burger patties, this press ensures uniform size and shape, making it ideal for professional presentation and even cooking.
- ✓ Streamline your burger preparation process with this easy-to-use patty press, allowing you to make multiple patties quickly and efficiently, saving time in busy kitchens.
- ✓ Made from high-quality aluminum with stainless steel gears, this patty press is built to withstand frequent use in commercial settings, providing long-lasting durability and reliable performance.
- ✓ The ergonomic handle ensures comfortable use, while the simple design makes the press easy to disassemble and clean, maintaining hygiene standards in your kitchen.
