

UPRIGHT FREEZER/ REFRIGERATOR

TKSA-UR378BT

STANDARD FEATURES

Single glass door, dual temperature

- ✓ This versatile unit is specifically designed to accommodate 60x40 trays, providing generous storage capacity for both frozen and refrigerated products. With its dual functionality, it seamlessly transitions between freezer and refrigerator modes, making it ideal for high-volume commercial applications where flexibility and efficiency are essential.
- ✓ Equipped with a cutting-edge cooling system, this unit ensures rapid temperature recovery and consistent performance, whether in freezing or refrigeration mode. Its advanced temperature control technology delivers precise settings to maintain optimal conditions, preserving the freshness and quality of stored items.
- ✓ The double-glazed glass door not only enhances product visibility but also provides superior insulation, ensuring energy efficiency even during frequent usage. The transparent design allows for effortless product monitoring while keeping internal temperatures stable, reducing energy costs.
- ✓ Engineered for exceptional energy efficiency, this unit operates with a low power consumption of just 2.7 Amperes. The integrated LED lighting system ensures bright, even illumination, making it simple to locate and access items while enhancing the user experience.

PRODUCT SPECIFICATIONS

Dimensions	60 x 72 x 190 cm
Temperature	-22 °C / +15 °C
Volume	400 L
Rated current	2.7 A
Refrigerant/Mass	R-290A / 92 g
Energy source	220 V / 50 Hz
Foaming agent	C5H10
